During the period of your school life, the world has seen many upheavals. Many serious problems remain to be solved. It is my sincere hope that you will be able to fulfill your obligations in the proper manner as you face the challenges of life.

Sincerely,
E. W. JACKSON,

It is my sincere hope that you have a little of the "Purple Spirit," that you will take it with you, pass it on, bring it back, and keep it. By so doing, through the years we shall build.

I hope, too, that you take with you a foundation, a determination, and a disposition that will make you succeed.

To me it is both a pleasure and a challenge to observe that the American spirit of Tom Sawyer still exists in our own Beaumont High School students. It is to this Spirit of adventure, courage, and activity that I dedicate my time, talents, and efforts.

Sincerely,

Association with you has been very pleasant for me. You have been kind and courteous. If the knowledge you obtained in training here produces good results, the time and effort devoted to you and by you has been well spent.

MOUTON, JOE

Joe has been, not only our Senior Class president, but a star basketball player to boot. Everybody likes this boy because of his easy-going manner and pleasant disposition. Joe's future plans include a few year's stay at Austin to study engineering and a jaunt around the world with his friend, Bill Hay.

SMITH, ARTHUR

Blonde, good-looking, and the life of any party, Art is a very popular boy. He's worked hard in student council and really deserves our praise. Because of his many good qualities, we feel sure that Art will achieve something big. Some day we'll tell our children, "I knew him when he was only the Vice-President of our Senior Class."

VINCENT, LOIS

That gay little girl with the wonderful personality is none other than Lois Vincent. Although at times it's hard to believe it, Lois can be serious too. Just look at her grades and you'll see what we mean. Next year this vivacious young lady plans to attend Texas University and study accounting. Lucky Texas U!

McLEMORE, DALE

Dale was an excellent choice for treasurer of the '46 Senior Class, because he is steady, popular, friendly to all and well, just one swell guy. BHS will certainly miss your gay presence next year, Dale.

MISS ALYCE McWILLIAMS Senior Sponsor

ABBOTT, LIBBY

This very attractive brunette has made quite a record in BHS. She was chosen prettiest girl in her class, Queen of our big bond rally in her junior year, and duchess to the football dance this year. How's that for popularity? Next year Libby goes to Southwestern University, where we hope they'll like her as much as we do.

ADAMS, KIRBY

All of Kirby's talent will be wrapped up into one vocation in future days. She plans to attend art school and become a professional fashion designer as soon as possible. She is as cute as pie and loves to do mischievous, exciting things. No wonder we hear her many friends remark, "Love that gal!"

ADKISSON, TERRELL

Terrell was a mid-term graduate and is now at A. and M. studying animal husbandry. He wants to own a big ranch and raise cattle. The best of the good things in life to you, Terrell.

ALBE, ELODIE

Elodie is going to be some lucky person's stenographer after finishing BHS and business college. We say lucky because her beauty, intelligence, and cheerfulness is an asset to any employer's business. Books and telephones aren't her whole life, however, for we see a handsome guy and a little white house in her not too far off future.

ALEXANDER, ROBERT

An asset to any class is this short, blond, good-looking senior boy. Alec, as he is affectionately called by his friends, hopes to enter Landig College of Mortuary in Houston or Texas University. The best of luck to you, Alec; we think you're mighty swell!

ALFORD, MAURICE

Maurice left us before mid-term, so we already know what it is without him. With his leaving, a little ray of sunshine went, too. We think you're tops, Maurice, and miss you lots.

ALLEN, JOHNNY

That happy lad with the bright smile is Johnny. We don't know what his ambition is, but he has proved himself a winner here so we're sure success will be his after he leaves us.

ANDERSON, EDWIN

This blonde senior has a noble ambition. He wants to be an F. B. I. man. He will major in law at A. and M. This is definitely Beaumont High's loss and A. and M.'s gain.

AUTRY, DONALD

Donald is another example of good things in little packages, with his hearty laugh and fun-loving nature. We're certain he'll go through life surrounded by friends as he has been at BHS.

BAKER, ANN

Ann is very quiet, but one is always aware of her for you can't forget her sweet smile and her pleasing disposition. She plans to attend Lamar after graduation. She is not quite certain what will be the next college she'll attend, but she is sure she will major in music and we know she'll be a success.

BALCAR, EVELYN

Evelyn's unusually merry disposition, sweet smile, and amiable ways have made her attractive to many people. She is an exceptional person and enjoys the distinction of being a dependable and efficient student. Evelyn never forgets how to smile.

BAREFIELD, CECILE

A quiet, serious-minded blonde is Cecile. What she will do in the future depends on conditions. One thing's certain—Conditions will always be favorable for a swell girl like Cecile.

Bertha is "slender, tender, and tall," a thoroughly lovable miss. She likes movies, dancing, singing, and, of course, boys. Her plans are indefinite, but its certain she'll make good, but definitely!

BARNES, BONNIE

Bonnie is a short, cute, brown-haired girl. Bonnie has played the clarinet in the band for three years and has been quite a welcome addition. Lots of luck in your future.

BEADLE, GLENN

If wit and personality are qualities of a successful person, then Glenn's future is assured. When asked what college would be his alma mater, he said "A. and M. of course!" Glenn will be a petroleum engineering major.

BEATTIE, SHIRLEY

Here's a girl who has a very bright smile and who adores to play the piano. She would like to study music and make a career of it, but she hasn't made up her mind yet where she'll go to college. Shirley is very smart—she graced the honor roll practically the whole time in high school. We wish her a lot of luck.

BECK, ARTHUR

Arthur, Co-business manager of the '46 Pine Burr, is dependable, willing to work and a friend to all. This science lover has plenty of brains and knows how to use them. He will study electrical engineering at Rice Institute in Houston.

BELL, MILDRED

Mildred plans to attend Gulf Park College for her freshman year and then off to Texas University. Although Millie is an expert violinist, she will major in English. Some day when she's a world famous writer we can say "we knew her when."

BENNETT, MARY ELLEN

Pretty Mary Ellen plans to go to L. S. U. and major in voice. She hopes someday to sing professionally, and from her performance here, we're sure she'll do well. However, these plans may be altered if Jim Don Beck comes home any time soon.

BERG, ROY

Although Roy is rather shy, he and Gravel Gertie are well known through the halls of BHS and the streets of the city of Beaumont. He's the boy you hear blaring out a bass horn in pep rallies and at the football games. Roy, after graduating, plans to get a job as a printer for the Enterprise.

BEVILACQUA, SAM

Sam, a lively, curly-haired boy, is well known and well liked at Beaumont High. We will long remember his never failing smile of greeting to all whom he meets. May success and happiness be yours in the years to come, Sam.

BLANTON, BOBBYE JEAN

With her sunny disposition, Bobbye Jean has identified herself as a good mixer. Her winning personality has acquired her many friends and we know with her charm and ability to enjoy life, she will be successful.

BOZEMAN, FRANCES

Frances' red hair and ever ready smile make her a favorite at BHS. What triumphs she may achieve in the future, we do not know, but we feel safe in prophesying that she will be successful in whatever she undertakes.

BREWTON, CAROLYN

The government will get Carolyn's services after she graduates. She plans to take a civil service test and will probably go to work at the post office. We're sure the government will be glad to get her services, for with her brains and sweet personality, she'd be a credit to any employer.

BROOKE, BENNIE LOU

Bennie Lou is another of these BHS students who are uncertain about their future life. But a little birdee told us that wedding bells would be ringing before long for Bennie and her "man." We wish you a long and happy married life, Bennie.

BROUSSARD, BLANCHE

"Live, laugh, and be happy" is Blanche's motto and she certainly follows it. Blanche's future isn't absolutely settled but we know a certain male who will play an important role in it.

BROWN, BRUCE

Is there anyone who can tell cornier jokes than Bruce? We think not. You can just see the corn syrup dripping off one of his. Despite this fact, we appreciate humorous boys and think he's swell. Always a staunch Aggie supporter, Bruce plans to attend A. and M. to study Animal Husbandry.

BROWN, FRANCES

Frances knows she wants to be a bookkeeper but doesn't know what school she will attend for her training. She plans to work for awhile before entering college. Here's to a gal with the stickability that counts!

BROWN, JEANNINE

We all know curly haired Jeannine Brown, That cute little girl who never wears a frown She's always laughing and gay We wish her happiness and success along life's way.

BROWN, JIMMY

Jimmy is a little boy with a big heart and every one knows and loves him for it. He's loads of fun but has his serious side, too. He will study medicine at Lamar and at John Sealy in Galveston. Good luck, "Dr." Brown.

BRUCE, EULA BELLE

Quiet, sweet, sincere—these are but a few of the many admirable traits that Eula Belle possesses. BHS owes her thanks and praise for the good work she has contributed so willingly throughout her three years here. Her plans are indefinite, but we're sure she will climb high up the ladder of success.

BRYAN, DOROTHY

Witty, gay, friendly. This is a good summary of a cute senior. She has played the violin in our high school orchestra. This musician will go to TSCW to major in the violin.

BRYAN, JOY

Joy likes swimming and basketball and dislikes rainy weekends. Her hobby is collecting recipes and her favorite subjects in high school were home-ec and chemistry. She will study to be a surgical nurse at either TSCW or Mary Hardin-Baylor.

BUCHANAN, DOUGLAS

Douglas' hobby is loafing. He likes to "take it easy" and not worry. His favorite food is angel food-cake. He dislikes politics and likes girls from West Texas. He is going to West Texas after graduation to seek his fortune.

BURKE, KATHERINE

Katherine, who likes picture shows and hates cold weather, is the cute dancer whom you've seen on so many assembly programs. Her favorite dance is tap dance. After graduation, she plans to continue her dancing in either Houston or Dallas.

CAIN, BOBBIE SUE

Sweet and friendly are two words with which you always associate the name of Bobbie Sue Cain. Here's a senior who will be a loyal Beaumontier by going to Lamar. She's undecided as to what she will major in, but it will probably be speech or dramatics. Music in all forms is liked by this cute girl.

Cecil plays the cello and has been quite active in the orchestra her three years at BHS. She also sings, so although we aren't certain, we believe her future life will center around music. The best to you, Cecil.

CAMERON, GRACE

This pretty green-eyed strawberry blonde is planning to enter the field of medicine. She will study to be a lab technician at the University of North Carolina. Grace's favorite sports are swimming and horse-back riding and her favorite subjects are science and English. The versatile young lady is bound to succeed.

CARGILL, DAVID

Capable and artistic, David was art editor of the 1942 Pine Burr. With brown hair and twinkling brown eyes, David is all fun. His dry wit and delightful sense of humor make him popular with his fellow students. His special personality has already put him on the road to success.

CAYWOOD, ROSEMARY

Although "Rose" hasn't disclosed to us what her ambition is, with as much spirit and enthusiasm as she possesses, she must have something definite in mind for the future. Whatever it is, we hope—we know you'll make it, Rosemary.

CHADICK, CLIFFIE JEANNE

Cliffie is another sports fan. She likes all sports and dislikes noise and winter. Archeology is one of her favorite studies, but art has first place in her heart. It will be her major at TSCW or Hunter College in New York.

CHERRY, JOY

This cute blonde just loves to write letters and although she says she doesn't like writing to a certain somebody, better than to just anybody, we aren't so sure. Joy dreams someday of being an air hostess and we're sure she'll make a good one because of her pleasing personality and good looks.

CHINNOCK, DICK

Dick's very special interest is dramatics. He will study the properties and production of dramatics at Lamar and Texas University. He plans to make cinematography his career. Knowing Dick, we know he can succeed at anything.

COALE, MARION

That blond boy with the reserved manner is Marion Coale. We really think that Marion should choose tennis as his profession but he's decided on engineering anyway. Yes, he plans to go to A. & M. next year and with him go our very best wishes for success.

CONLEY, HERMAN

Quiet, dark, Herman always has a friendly smile for everyone he meets. Although he doesn't talk very much, his smile and his actions speak louder than words and prove to us he's a grand boy!

CONOVER, BEVERLY

Here's to a gal that we call a real pal. Bev. is really very sweet and loads of fun, and certainly no one enjoys a funny story more than she. She has been a member of the orchestra, Voice of Youth, and the dramatics club, and has found time to be with her friends too. Lamar and Texas University will have Beverly who will take a business course.

COOKSEY, BETTE

Have you seen a black convertible flashing around here? If so it belong to Bette. She only attended school half-a-day this whole year because her credits entitled her to do so. She will be seen on the campus of Texas Tech in Lubbock to major in Animal Husbandry. Next year we know success will be hers.

COOPER, LOIS JEAN

Lois Jean, the pretty co-editor of the '46 Pine Burr, will probably major in journalism at Stevens College in Columbia, Missouri. Cooper is outstanding in dramatics, too, as she proved in her performance in the Soph and Jr. Stunts and the Jr. play. She was also president of the Dramatics Club in her senior year and has been a member in good standing of the orchestra her three years at BHS.

CORONA, MARY JO

Mary Jo is the little girl who always makes good. She is a pleasure to all her teachers because her work is done with efficiency. That is why we know that Mary Jo will be a book-keeper for the best when she finishes Cheniers.

CORRELL, TRAVIS

Travis likes all sports especially swimming. He says his hobbies are eating and sleeping. He doesn't intend to go to college. He's going to work for a newspaper as pressman right after graduation.

COSTANZA, ANTHONY

Anthony is going to the Army after graduation. He plans to go to college after he gets out of the army, but since that will be quite some time from now his plans aren't complete. BHS wishes him luck.

COURTNEY, MARY NELL

Mary Nell says her favorite hobby is eating. Therefore she is a typical BHS student. She will study business administration at Lamar and Texas University and judging from her performance at Beaumont High, we're sure she'll make good.

COURTS, GLORIA

Gloria is another of those gals who likes office work. She has taken commercial training here and will continue to take it in college after graduation. Someday she'll be some lucky bosses' private secretary.

CRUISE, CAROLYN

Carolyn has brown hair and eyes and is 5' 3" of vim, vigor, and vitality. She will study at the University of Colorado. What hasn't been decided as yet. Like most girls her hobby is dating and having fun and we hope she always will.

CRUSE, DAN

Dan has blue eyes, red-brown hair, freckles and a supply of witty remarks which has made him well known at BHS. He is interested in acrobatics, but doesn't intend to be a professional. He will study forestry at Colorado A. & M.

CUCHIA, COLEY

Coley is a typical BHS stude, good natured, a sports fan, lots of fun. We don't know what he plans for the future, but knowing Coley, we're sure he'll always be surrounded by friends.

DAVIS, DAN

"For he's a jolly good fellow"—that's Dan. He is an excellent trombone player and has played in the orchestra for 3 years. We're not sure what profession Dan will follow, but he's bound to succeed. Best of luck, Dan.

DAVIS, MARY LOU

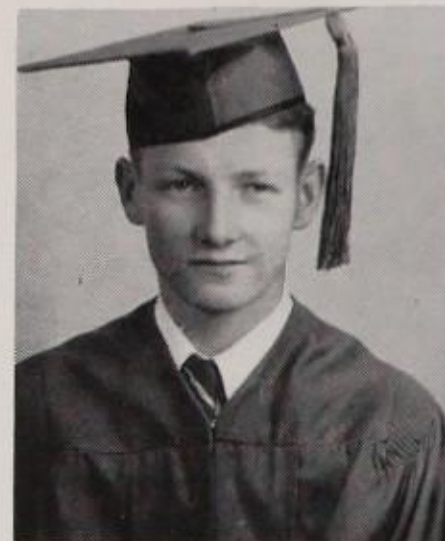

Mary Lou is that cute little red-head who's always neat as a pin and pretty as a picture. Stay as sweet as you are now, Mary Lou, and success is bound to come your way.

DAVIS, OSCAR, JR.

Oscar stands out in any crowd because of his red hair and swell personality. That Oscar was assistant editor of the Pine Burr in his senior year and has made outstanding grades his 3 years at BHS proves he'll succeed in whatever he undertakes.

DAVIS, PATSY

This pretty black haired girl is an asset to any crowd, because of her swell personality and easy laugh. Patsy is proof that the best things come in the smallest packages and you've really missed something if you don't know her.

DAVISSON, ROBERT

Anyone can recognize Bob easily, because he towers above every one else in both height and in personality. This tall, friendly boy is a pal to all and more fun than a barrel of monkeys!

DAWSON, MARGIE

Brown haired, black eyed Margie has the cutest dimple you ever saw. Her hobby is boys and her pet dislike is school. She likes bookkeeping and may go into office work after graduation. But we bet Margie will make a very good housewife.

DELANEY, HAROLD

Harold is going to the navy for four years after he graduates. He is going to study aviation mechanics. At the end of his training he plans to go to New York and be an aviation mechanic. Best of luck, Harold!

Jimmy is still undecided as to what he will do after graduation, but whatever it is he'll tackle it in the traditional Pryor style. Here's to the President of the Beaumont Touchdown Club.

RAMSEY, DOUGLAS

Brown haired, brown eyed, handsome, popular Doug is everybody's friend. If you don't know him, you've really missed something. Doug plans to study business administration at Lamar but after that his plans are rather indefinite. Remember, Doug, wherever you go, whatever you do, our best wishes go with you.

RENKEN, CARL

Carl, a good looking 6 footer is that singing left end of the Purple line. He loves to sing and play a guitar and go squirrel hunting as well as play football. Carl plans to study electrical engineering at Texas U and also hopes to win a football letter.

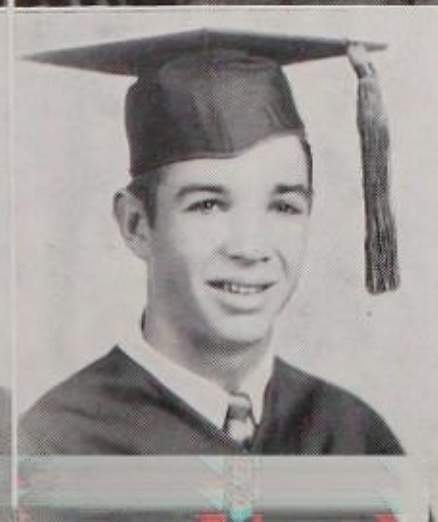

RICHARD, BILL

Here's a boy who wants to be another engineer but he's being slightly original in that he's decided to study Mining Engineering at Colorado School of Mines. We'll miss his smiling mug and ever-ready laugh when he's gone. We only hope that he succeeds in everything as he did in selling Pine Burrs. (He sold half a million—well, almost.)

RICHARDSON, JANIS

Gather 'round ye wolves of Beaumont High School. She's gay, she's beautiful, she's "sharp as a tack" and well, what else do you want? Next year Janis plans to attend Stevens and after that, Texas University. We wish her luck, knowing that she should have very little trouble getting what she wants.

RICHEY, DONALD

This tall blonde and his car Bessie are as well known around school. He likes to work and eat ice cream. He goes to Lamar now and takes machine shop. He plans to open a shop as instructor, when his two years' course is complete.

RICHMOND, JERRY

Jerry, a tall, blonde boy likes to eat, especially fried chicken and to make model airplanes. His favorite subject is machine-shop. He hopes to go to college, but Uncle Sam may interfere.

RIDLEY, HAL

Hal is a tall handsome blonde, who is really a grand person to know. Hal is everybody's pal and Beaumont High won't be the same without him. Our best wishes go with you always, Hal.

RIGHTLY, DELORES

Four feet ten inches of vim, vigor, and vitality, that's "Dee Dee". A spunky little cheer leader, her pert laugh and ram-bunctious personality was in great demand in Beaumont High School. Brown hair, brown eyed, she hopes to attend Rice Institute and major in chemistry. "I'd like to be a second Madam Curie," she says wistfully. Wherever she goes, "Dee Dee" will be a favorite for she possesses that certain little trick of always being friendly and sincere. Happy experimenting!

ROBINSON, MARTA SUE

Marta Sue is the tall athletic type of girl and plans to major in Physical Education at Lamar, after graduation from Beaumont High School. She has played the viola in the orchestra for three years and likes music, too.

ROMANO, JOSEPH

This black-haired brown eyed boy loves sports. His favorites are fishing, hunting, and girls. Joseph plans to be an electrical engineer and will probably go to Lamar next year.

ROSE, MARJORIE

Brownette Marjorie is as sweet a little girl as we ever hope to meet. Just knowing you has made out lives much brighter, Marjorie. May success be yours in the future.

ROUGEAU, DEAN

This spry miss—always full of fun—is very ambitious, also. She wants to be a court reporter. She is undecided about her college, but her major will be journalism. Best wishes to a swell kid!

ROUSE, JOCELYN

New York's contribution to the sunny south is none other than Jocelyn Rouse. Having made her debut in Texas only a year ago she has proved to be a swell all around friend. Her precious "pug" nose and northern accent as well as her quaint personality have made her one of us. T. S. C. W. will claim Jocs next year as a fashion designor major.

RUSH, IRENE

"Renie" is going to take a business course after graduation. She has been an active member of the Melody Maids since she has been in Beaumont High School. She intends to continue singing with them. Too, there is a sailor in the picture who seems to have a lot to say about what she is going to do.

SCOTT, BETTY JO

Tall, pretty "Scotty" loves to dance and play basket ball and she's good at both, too! After graduation, Betty Jo will go to Lamar to learn to be a teletype operator.

SEIBERT, WALTER

Walter likes to play baseball, and he likes girls—all of 'em. His favorite subjects are history and English. He hasn't decided yet what he will do to earn a living, but he hopes to go to Lamar next year.

SELF, HARRY GENE

Harry Gene's hobby is building model air planes. He likes radio programs, too, especially serials. He goes out for track but likes sports of all kinds. He plans to study engineering, probably at Lamar.

SIRMAN, JACK

If you want to know someone who is friendly, cheerful, and fun to be around, then you've found the right guy. After leaving dear ole BHS, ambitious Jack plans to study Diesel Engineering. Stay as you are, Jack, and success will surely come your way.

SHANE, MARGARET

The owner of this friendly and happy go lucky personality has the knack of getting along with people. "Shane" has a pleasant nature and is very interested in Physical Education. She hasn't decided yet what school she'll go to, but she will major in Physical Education. In a few years "Shane" will be taking over Miss Hughes', Miss Liddell's or Miss Pye's job.

SLEDGE, CORKEY

Here he is girls. Now don't crowd and push. Yes, it's Mr. Casanova himself, "Corkey" Sledge. This boy with the irresistible smile has been our head cheerleader this year and has done a good job too. He's an asset to any group because he loves a good time. Next year, Corkey will study Business Administration at Texas U.

SMITH, EDWIN

"Smitty" another one of those shy but super men that inhabit the halls of BHS. At the bottom of his heart and the top of his ambitions Edwin places football. With his leaving, BHS loses a football player and a "reg'lar feller" whose place will be hard to fill. May you score many touchdowns in everything you do.

SMITH, H. M.

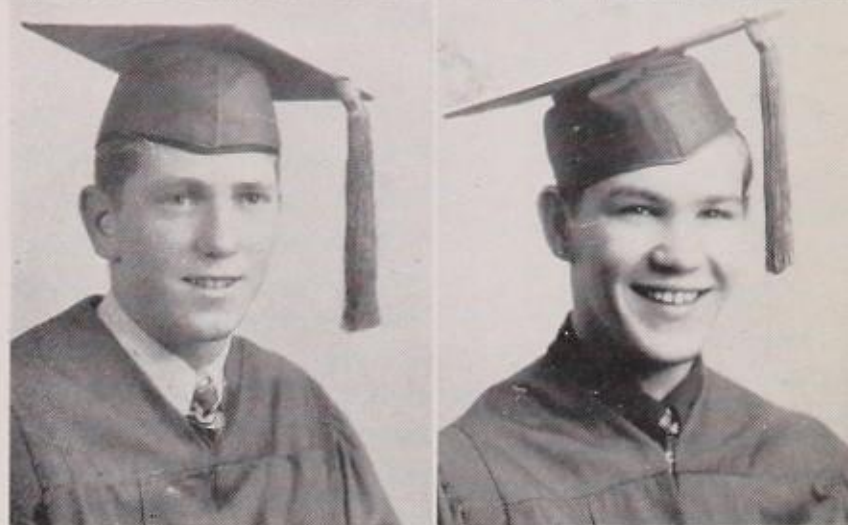

"Say you want to laugh; say you want to hear a joke? Well, I tell you what I'm going to do." Yes, it's none other than H. M. Smith the guy who laughs at everything. Life is just one big joke to him and he really enjoys living; you can't get him down. H. M. will probably attend Lamar on the Neches and we know he will "keep 'em rolling" with those jokes.

SMITH, SHIRLEY

That shy little brownette you've seen in the halls the past three years is Shirley. Most of us know her, and those who don't have certainly missed something. However if you'd like to meet her, just offer her something to eat, and she's your friend. She will take a secretarial course at Lamar.

SOBEL, GERALD

Intelligence plus stands for Gerald or "Jerry" as his friends call him. But outside of class he's strictly out for fun. Five feet six inches of friendly smiles and good humor, Gerald will study medicine at Texas University. He likes scientific experiments, good movies, and girls, and has a decided dislike for detailed tests. One of the Beaumont High's prides. He will travel far if ability is any method of transportation.

SPARACINO, MARY ANN

Mary Ann, the cute little girl with wavy brown hair, is known by all. Mary Ann's future is undecided, but she thinks Chenier's Business College is the place for her. Mary Ann spends her leisure time dancing and going to movies. Her favorite subject is literature. We know that wherever Mary Ann goes, success will follow.

SPILLAR, JOHN

A swell guy in the '46 senior class is John. This kid just can't be beaten. Best of luck to you, John. Your friends will certainly miss you.

STANLEY, LUCILLE

Everyone knows Lucille by her glowing hair and sweet ways. "Red's" plans for what she would do after graduation were rather indefinite, but now her heart has decided for her. Best wishes for your happiness, Lucille.

STEADMAN, NORMA

This green eyed brownette hopes to be owner and operator of a gift shop after graduation. Norma also likes to draw and has taken art for three and a half years. Here's wishing you the best of everything in life.

STRIPLING, LEE

Lee has been stage technician this past year and has really done a swell job. He is outstanding in all his subjects, too. He will study astronomy at A. & M. His hobby is "messing around with electricity." Lots of luck to you in the future, "Jim."

SYLER, HELEN

This cute blonde miss by the name of Helen gets a big buzz out of the roller coaster. She's done a lot these years at BHS to make things gay. Next year she'll be seen on the campus of Southwestern University. Success will surely be hers.

TAYLOR, BROWNRIGG

Tall, blonde, witty and athletic are nice adjectives to describe Brownrigg's unusual character. "Brownie" certainly deserved those loud cheers that were passed his way during basketball season, and we know that he will be an asset to A. and M. this coming year.

TERRELL, MARY ANN

Mary Ann, that little girl who has beautiful blonde curly hair and big brown eyes, has hopes of being a lab technician in the not far-off future. She dislikes algebra and just adores horseback riding. She will matriculate at Texas U.

TESSITORE, ANNETTE

Annette has curly brown hair, a perpetual smile, and a wonderful disposition. Hitch your wagon to a star, Annette, and keep going with your usual determination, and you're sure to reach your goal.

TETTENBAUM, IRENE

Talented, intelligent Irene is one of those few students who rank high scholastically. She most certainly was around when the brains were passed out. "Tettenbaum" is well known around BHS by her grades, her beautiful black hair, and her eversharp wit. BHS will miss her next year when she goes to Lamar to study medicine.

THAMES, BECKY

In the not too distant future when Becky reaches the top, BHS can well be proud to claim her. Becky plans to make singing her career and study in Lamar the next two years. Good luck, Becky, don't forget us.

THEUS, PEGGY RUTH

Peggy plans to study either Physical Ed. or Home Ec. at Lamar and T. U. after graduating from BHS. Our personal opinion is that Home Ec. is the field for her, 'cause—Have you noticed how those pretty blue-grey eyes light up when a certain somebody is mentioned?

THOMAS, EVELINA

Evelina left us during first semester. We were genuinely sorry to lose her, for she, with her sweet way and winning smile, had endeared her to all of us.

THOMAS, LOUISE

If you should meet an adorable, tiny (she's 5' 2") brunette senior while winding through the halls of BHS, she would be Louise Thomas. Louise's plans for the future are rather indefinite, but we wish her lots of luck in whatever she undertakes.

THOMAS, TOMMY

Quiet, capable, dependable Tommy is one who says little and does a lot. Tommy can always be depended upon to get the job done and done well. If only there were more like him!

THOMPSON, CHARLES

Charlie, the possessor of one of the most cheerful dispositions of anyone we know, likes commercial subjects. He will go to Lamar next year to specialize in business advertising.

THORNTON, SYBLE

Syble likes horseback riding and swimming. Her hobby's collecting stamps. She also keeps a scrap book of interesting happenings and current events. She likes bookkeeping, especially, and plans to work in a business office after graduation.

TIPTON, NEIL

Neil, the "shorty" of the senior class of '46, is 6' 3" tall. He can be recognized by his cowboy boots and flashy shirts, for he dearly loves horses and likes cowboy garb. Good luck, Neil, from your pals at Beaumont High.

TUCKER, CLAIRE ANN

Claire Ann is going to college, but she doesn't know where. Her favorite subjects are commercial subjects. She likes sports of all kinds and dislikes unfriendly people. Her hobby is collecting unusual cups and saucers and being friendly with people.

WALKER, JACK

Jack is one of those few boys at BHS who doesn't like girls. His favorite subject is Ph. Ed. He plays basket ball and was manager of the football team this year. He is going to study to be a veterinarian at A. & M.

WALKER, LYNN

Lynn, the man of all trades
A guy whose popularity never fades
Oh, he can dance and he can act
Wow, he can play a piano, for a fact
There just isn't anything he can't do
And for happiness and success
Lynn, our eyes are on you.

WESNER, ERNEST

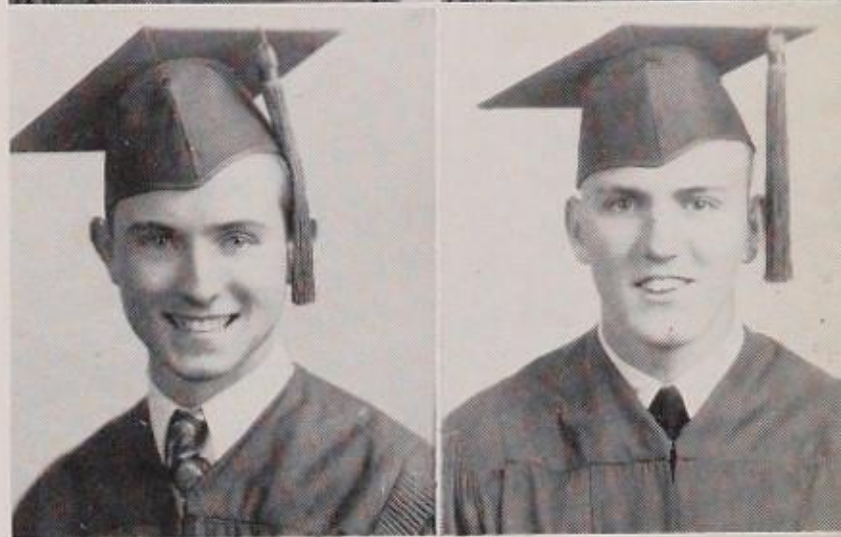

It's easy to recognize Ernest by his contagious grin, cotton head and ever steady stream of "get up and go." To be a millionaire is "Weezner's" life ambition and he already has a pretty good start. 'Cause we think a million of him!

WEST, LOU ALICE

"LuLu" as she is affectionately called, likes music, science, and the Navy. Galveston also has a strange fascination for her. She plans to be a nurse and we're sure all her patients will love her as we do.

WHITE, EUGENE

Eugene likes hunting, fishing, reading, sleeping, and chocolate pie. He doesn't sleep all the time, however, for he's very ambitious. He will study medicine at Baylor. Lots of luck to a future M. D.

WHITMEYER, JIM

Jim is Mr. Cariker's ideal boy because he hasn't missed a day of school or cut a class in his three years at BHS! He will continue his higher education at Lamar, but hasn't decided what he'll study yet. However he's a whiz in the print shop, so it may be something along that line.

WILEY, MARGARET

Have you noticed those adorable creations Margaret wears? If not, take a second look, for here's a young miss who can really do things with a needle and thread. Nature has also blessed her with a talent for art which she uses quite often. She will study fashion design after graduating, but her greatest ambition is to be a model. And with that perfect poise and artistic taste she can't miss.

WILKINSON, CLARENCE

Flying, flying, flying! That's Clarence's whole life! All his interests center around flying. It's his hobby now, he wants to be a flier after graduation. Math and aeronautics are his favorite subjects. He likes flying so well, girls just don't enter his life. He will enter the Naval Air Corps after "that day in May."

WILCOX, GENE

Although Gene has been in the band his 3 years at BHS and plays a hot clarinet, he will not major in music. He is going to A. & M. and hopes to come out a chemical engineer. He would also like to travel someday. We're sure he'll succeed, because anyone as swell as Gene can't fail to make good.

WILLIAMS, MYRA

This pretty green-eyed brownette, though quiet, is well known and well liked at BHS. She too, goes in for office work and will go to business college to train to be a secretary after graduation.

WILLIAMS, RAY

Ray is going to the Army after he graduates and then is going to train to be a civil engineer. His favorite subjects are chemistry, physics, and algebra. His hobby is making and flying model airplanes. May your happiness soar as high as your planes, Ray.

WILLIAMS, SUE

Although Sue just arrived at BHS this year, she has definitely been a tribute. Her sweet smile and lovely disposition has made her popular with everyone. Vocational interest are modeling and fashion designing and we know she'll succeed, for her looks and original ideas certainly meet the necessary requirements.

WILSON, GLADYS

Gladys is a cute, friendly girl who wants to be a stenographer. After she leaves BHS she will take a business course and then go to work. The best of luck to a swell gal and a true pal!

WITHERS, NORMAN

Norman is a person liked by all who know him. After graduation he is off to A. & M. to take Petroleum engineering and then for a crack at professional baseball. Then of all things he may become a rancher. Regardless of what he does, his good looks and winning personality will bring him success in what ever he attempts.

WROTEN, DON

A big loss this year to BHS will be Don Wroten. After he gets his sheepskin he is going to A. & M. and major in veterinary agriculture and animal husbandry. After all this learning Don is going to own a ranch in West Texas. Here's our best to a swell guy.

WYATT, BETTY

Well-known through her editorship on the paper for the first semester, Betty has won a place in the hearts of her fellow students. Sweet, friendly, cheerful, and always dependable, she will someday be a director of religious education. "Bet" is five feet, six inches tall and has blond hair and hazel eyes. She dislikes snakes and loves to eat. Quite a combination for one of Beaumont High's favorites!

WYCHE, DOROTHY

Dot is not only a true Royal Purple, but a loyal Aggie supporter as well. If she were a boy she'd go to A. and M. "natch-erly" but since she's a girl, she'll settle for Baylor where she'll major in music and minor in math.

SENIOR PLAY

There are plays and plays about modern American families. Each is a little different; each serves its own purpose, but only occasionally is a play found that approaches this subject with the insight and humor as did "And Came the Spring," this year's Senior play.

Are young people actually more irresponsible today because of their seemingly flip-pant and easy-going manner than was the youth of other times; this was the theme of "And Came the Spring."

The play told the humorous story of the Hartmans, a typical American family, who enjoyed a reasonable amount of peace and quiet until Spring entered the scene. Midge, the youngest girl who causes all the comic trouble was superbly played by Jacqueline Myers. Dare Keelan played to the hilt the studious brother whose carefully planned life was interrupted by a New York glamour girl, amply portrayed by Lois Jean Cooper.

Evelyn Balcov and Lynn Walker turned in convincing performances as the bewildered parents who tried to understand the antics of their children.

Wilma Eddins, the older sister, Sheldon Leva, the boy Midge falls for, and Tommy Jenkins, as Virginia's beau, turned in equally fine performances.

Arthur Smith and Jeannine Henderson almost stole the show with their difficult character roles.

Others who helped make the play a success are Shirley Jacobs, Dick Chinnock, Dolores Rightly, Oscar Davis, Geray Gayley, Arthur Beck, and Gerald Sobel.

Miss Dorothy Coats deserves much credit for directing the play.

JUNIOR PLAY

The Junior class presentation this year was the hit comedy, "Best Foot Forward." The action took place at Winsaki prep school. The boys were planning eagerly for the annual prom when they learned that the famous movie star, Gale Joy, was expected at the dance. The catch was that the principal, Dr. Reeber, did not expect her. The ensuing mix-ups and explanations proved to be highly amusing and entertaining.

Edward Frost, as the somewhat conceited Dutch, caused many a laugh when he and Ethel, played by Pat Avery, got together. Walter Carraway as Hunk, caused a considerable amount of confusion with his changing voice. Minerva, played by Marjorie Wright, was the perfect little angel.

The "Blind Date" and Miss Delaware Water Gap, furnished two of the funniest characters in the play.

The Blind Date, played by Addie V. Moak, stole the show with her blase intrusions. Miss Delaware Water Gap, played by Maross Lightfoot, was well played.

Miss Smith, Marilyn Neil, the chaperone, came in for her share of laughs and her appearance certainly carried out the part.

The two leading roles were carried out by Dan Jones as Bud, and Sarah Ann Lockwood as Gale Joy. Dan played the bewildered Bud perfectly and "Sal" was typically the brash "Wham Girl."

Ted Tudor caused a near riot when as Satcher, he entered clad in shirt and loud shorts.

Helen, Sara Crager, R. A. Farque as the "Old Grad," Jack Haggerty, Bobby Joe Allison, George Yianitsas as Professor Lloyd were all excellently portrayed.

The scenes between Jack Albaugh as Chester, the raw young reporter, and Doctor Reeber, played by Marvin Barrett, were some of the best in the show.

All in all everyone had his "Best Foot Forward" and the juniors added another success to their long list.

THE VOICE OF YOUTH

The Voice of Youth Club, organization of Beaumont High School, makes it possible for our top history students to meet and discuss current questions both foreign and domestic.

Regular meetings are held each Wednesday during Senior Advisory period, and at that time two speakers present the affirmative and negative side of the question. After a short rebuttal, the question is discussed by the entire group.

Topics for debate and discussion are selected by students who present suggestions to the program committee. The vice-president is the presiding officer over this committee. Other active committees include parliamentarian, historian, public relations, membership, social, typing, and publicity. Favorite topics discussed during the current year were—Should the United States government abolish the poll tax? Resolved: Beaumont needs parking meters; Resolved: The United States should share the atomic bomb with

other nations; a Suitable Memorial for Lamar; those who fought in World War II, and Territorial control by an international council or by individual nations.

The Voice of Youth, in addition to regular meetings presents an annual assembly program. On February 22, 1946, a program was presented in commemoration of all the famous people who celebrate their birthdays in February. The first act consisted of personified statues making side remarks in the Radio Hall of Fame, while the second act was devoted to paying tributes to such patriots as Washington and Lincoln. All members of the group took part. A discussion of military conscription was given for the Rosedale Parent-Teachers Association, March 22, 1946.

In the Voice of Youth students may feel free to exercise their esteemed right—freedom of speech. Clubs of this type encourage the practise of democratic principles in America.

Facing many difficulties, the Royal Purples got under way on September 1st. To begin with the boys had to become acquainted with the new head coach, I. B. Griffith.

With only 5 lettermen and a bunch of rookies the coach was expected to build a team worthy to bear the title of Royal Purples. The training was rough and the boys new—so who could tell what the team could do.

The first game was with the Som Houston eleven. The game was a scoreless tie but it proved to be a real thriller.

The second game terminated in a 19-0 loss for the home team at the able hands of the Lake Charles Wildcats. The first special in four or five years was run for this game and the student body turned out in great fashion to witness the game. Those who know football feel the BHS team made a good showing by holding the Lake Charles team in check so well.

The third game of the season found the Purple eleven journeying to Houston to meet the Jeff Davis High School team. The game, which was played in rain throughout the entire period, ended in a 12-0 defeat for our boys.

Game number four was our first victory. It was played as the second game of a double header which saw all the high school teams of Beaumont taking part. Our 13-7 defeat of the French Buffaloes served to lift the lagging Purple spirit to new heights.

The following Friday saw the Galveston Golden Tornadoes dampen our spirits to the tune of 35-0. Although mistakes and fumbles handicapped our boys they played a better game against Galveston than any other team they had thus far encountered.

In a hard fought, hard won game the Beaumont High team edged out a 13-12 victory over Saint Anthony the following Friday. The Bulldogs held the lead for a good while, but a gallant team came back to score and win.

Making use of a special train for the game, many loyal BHS students went to Orange to witness the game which terminated in a 34-0 loss for their courageous team. The Orange Tigers were well seasoned and experienced men, but they knew they had played a hard game when the gun fired at last.

Following this the Beaumont boys went to Goose Creek and at the hands of a team destined to go to the state finals suffered a 52-0 defeat.

Then this team did the unexpected and scored against the former state champions, the Port Arthur Yellow Jackets. The game ended with a 41-7 score, but the Purples showed power and improvement and were getting ready for the annual city contest with South Park.

Friday, November 30th was the great day for the BHS squad and student body. After a large bonfire on Thursday and the best pep rally of the year held Friday evening, the determined Purple team went to South Park to play a hard game. This game was the best the Beaumont High Purples had played all year. The final score was 19-14 in favor of the Greenies, but the score was no indication of what took place on the playing field.

This game terminated a season which gave many of our boys valuable experience, and they are looking forward to a season of success next year with Coach Griffith at the Purple helm.

BOY'S PHYSICAL EDUCATION

Earl Hutchinson, Carlos Davis, L. M. Coy, and Moody Pickett are responsible for all stalwart, well-built boys around Beaumont High School this year. Through their physical training boys of B. H. S. have been prepared for anything that life may deal to them. The boys have been given a well-rounded program of calisthenics, tumbling, and boxing. To this program football, track, baseball, and work on the parallel bars was added. All future needs for physical training have been met in the boys' physical education department.

GIRLS' PHYSICAL EDUCATION

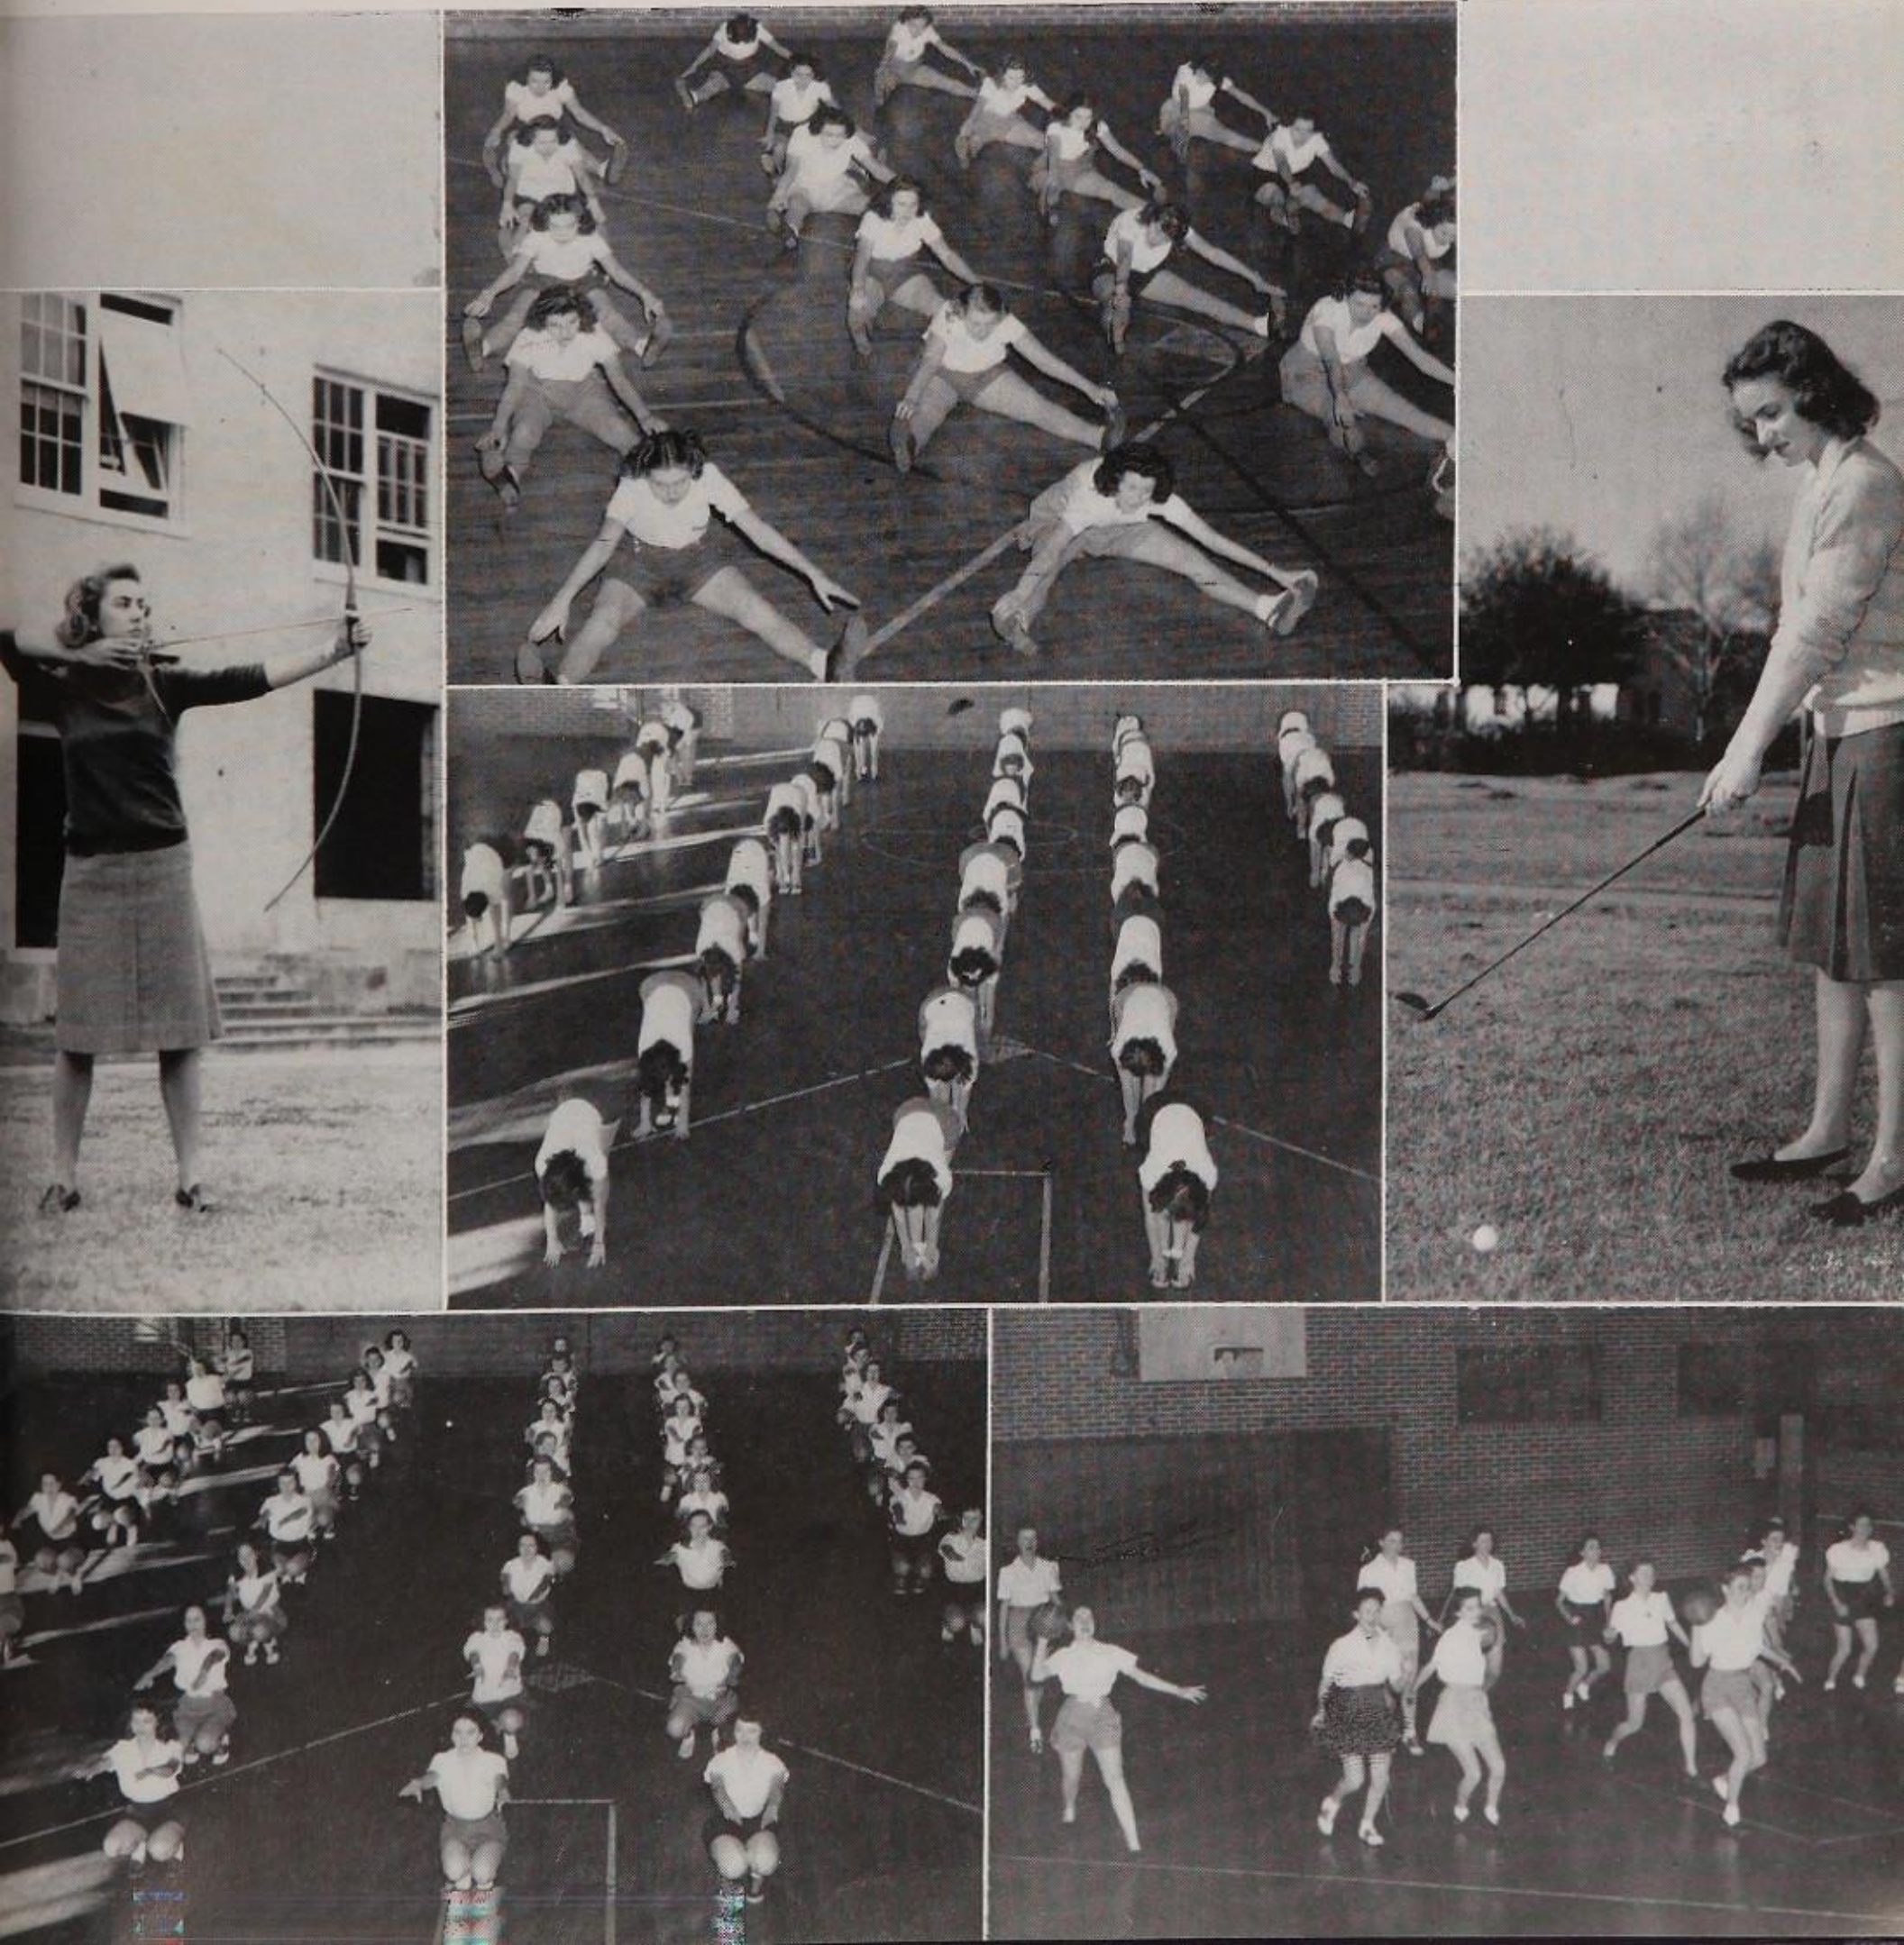

Girls of Beaumont High School were taught the rules of tactics and techniques of various popular sports in the physical education department under the supervision of Misses Thelma Hughes, Ruby Lee Pye, and Vivian Liddell.

After mastering the art of volley ball, the girls moved to the outdoors for speed-ball.

During the most severe part of winter when weather conditions prohibited play out-of-doors, a five-weeks course of first aid for sophomores, anatomy for upperclassmen, and communicable diseases for those in the short gym periods was taken.

The stimulating game of basket ball followed with the girls acting as their own officials. When the warm days of spring returned, softball was enjoyed.

Individual sports such as tennis, golf, archery, tumbling, and ping pong were played during the entire year.

SCHOOL SONG
EVER LOYAL TO THE PURPLE

Ever loyal to the Purple
All the live-long day,
Beaumont's better than the rest:
Just watch us fight—(oh say—)
Oh yes, we're fighting, for we're
Ever loyal to the Purple,
Grand old team are we,
And we'll fight, fight, fight,
 fight, fight, fight, fight,
And win the victory.
